## Customer Invoices

Odoo 19 Enterprise · Invoicing

---

Create and send invoices to customers.

### 1 Create an invoice

Invoicing > Customers > Invoices > **NEW**

Click New to create an invoice. Fill in the customer, invoice date, and lines. Click Confirm to post. Click Send & Print to email the invoice. Register Payment when the customer pays. The process is identical to the Accounting module – refer to the Accounting guide Chapter 04 for full detail on each step.
