## Online Jobs Overview

Odoo 19 Enterprise • Online Jobs

---

Online Jobs publishes your open positions on your website's career page, allowing candidates to apply directly online.

### 1 What Online Jobs does

#### Recruitment

Online Jobs is the public-facing extension of the Recruitment module. Open job positions in Recruitment can be published to your website's /jobs page. Candidates browse the positions, read the job descriptions, and submit applications online. Applications flow directly into the Recruitment pipeline. The careers page is customisable with your company branding.
